- **AV 4:** HDMI, YPbPr
- **Audio Output - Digital:** AC3 over S/PDIF (Optical)
- **Front / Side connections:** CVBS in, S-video in

Dimensions

- **Product weight:** 84 kg
- **Weight incl. Packaging:** 98.7 kg
- **Carton dimensions (WxDxH) inch:** 61.02"x31.89"x62.01"
- **Product dimension (WxDxH) inch:** 56.65"x26.89"x59.37"
- **Product weight (lb):** 184.8
- **Weight incl. Packaging (lb):** 217.14

Supported Display Resolution

Resolution	Refresh rate
1080i	60Hz
480i	60Hz
480p	60Hz

Power

- **Mains power:** AC 90-140V, 60Hz

Product highlights

HDTV

HDTV delivers exceptional picture quality and real movie-viewing experience that makes television more dynamic, truer than anything you've seen before. It is the latest and best television signal available. It features picture quality more than twice that of traditional analog broadcasts. In order to effectively maximize the HDTV signal, a television must incorporate advanced signal input connectivity and circuitry design.

Dolby Digital Surround

Because Dolby Digital and DTS, the world's leading digital multi-channel audio standards, make use of the way the human ear naturally processes sound, you experience superb quality surround sound audio with realistic spatial cues.

Electronic Program Guide

The Electronic Program Guide (EPG) will provide you with an overview, listing the program information

Auto Picture

Auto Picture button on the remote control enables one-touch selection of various preset optimized image settings to suit different TV program.

Auto Sound

Auto Sound provides pre-defined sound settings for ultra bass, bass, treble and balance for the optimum entertainment experience.

HDMI input

HDMI makes an uncompressed digital RGB connection from the source to the screen. By eliminating conversion to an analog signal, it delivers an unblemished image. The non-degraded signal reduces flicker and leads to a clearer picture. HDMI intelligently communicates the highest output resolution with the source device. The HDMI input is fully backward compatible with DVI sources but includes digital audio. HDMI uses HDCP copy protection.

Component Video Input (YPbPr)

Component Video is the highest quality interconnection standard for analog video. It is sharper than S-video and composite video.
